LEGO
Welcome to the World of LEGO®

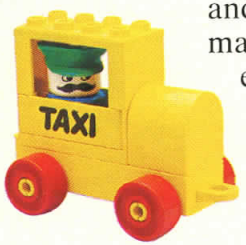
How LEGO Grows With Your Child

Almost from the time a child starts walking, the world of LEGO says "welcome". It's a unique world. A fascinating place where a child's dreams become a child's accomplishments. Because whatever children can imagine, they can create with LEGO building bricks.

Each LEGO set suggests a minimum age as a helpful guide to parents. As your child grows, the world of LEGO grows, too. The addition of more sets expands the building possibilities, offering even more challenge and fun.

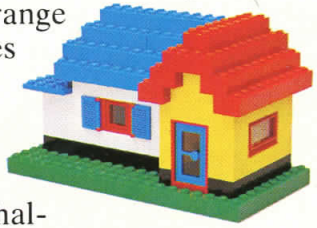
LEGO PreSchool

From 1½ Years These sets are specially designed for little hands and big curiosities. The blocks are big, bright, and durable. Each set makes a different toy and each set includes at least one figure. They can play while they build, then play with what they built.



LEGO Building Sets

From 3 Years LEGO Universal Building Sets provide the first big step forward into *more* creative building. These sets offer a wide range of different shapes and colors of the basic bricks. The LEGO Models add additional excitement and challenge. They can be used by themselves to make something specific; or they can be combined with other sets to make something brand new.



LEGO Building Sets

From 6 Years The Universal Building Sets and Models in this category are specially designed to inspire the creativity of the older child. The sets range in size, complexity, and theme, so every child can find a satisfying level of challenge and fun. For the advanced, there's even a motor to put it all in motion. Each set contains detailed building instructions.

Welcome to the World of LEGO. It's a world without end . . . because there is no end to LEGO.

LEGO PreSchool

From 1½ Years

LEGO PreSchool Building Sets offer a happy beginning to a lifetime of learning. Each piece is made of bright, durable plastic. They're big enough for little hands to handle and all the pieces snap together and snap apart easily. For more fun, the PreSchool sets include figures - little people, dogs or cats - all designed to run away with your child's imagination.

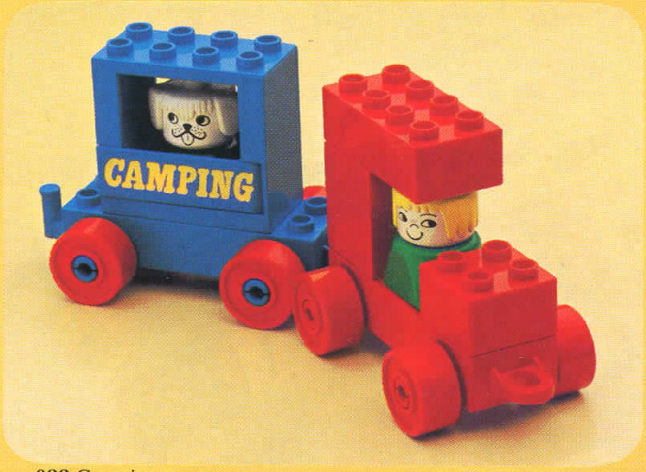
From 1½ Years

LEGO PreSchool

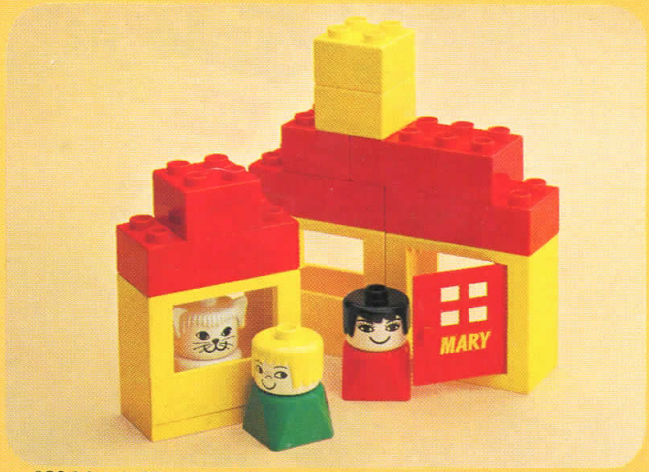
There are three large PreScholl sets. Each one contains at least one wheeled platform, special window blocks, doors that open and close, and most important of all - lots of delightful new figures. The larger the set, the more blocks and special elements for expanded play.

085 Racer

087 Taxi



088 Camping



089 Mary's House

Here are four more exciting LEGO Pre-School sets, all with special new elements, plus the playful, colorful figures. All four sets are fun by themselves, in combination, or as additions to other sets.

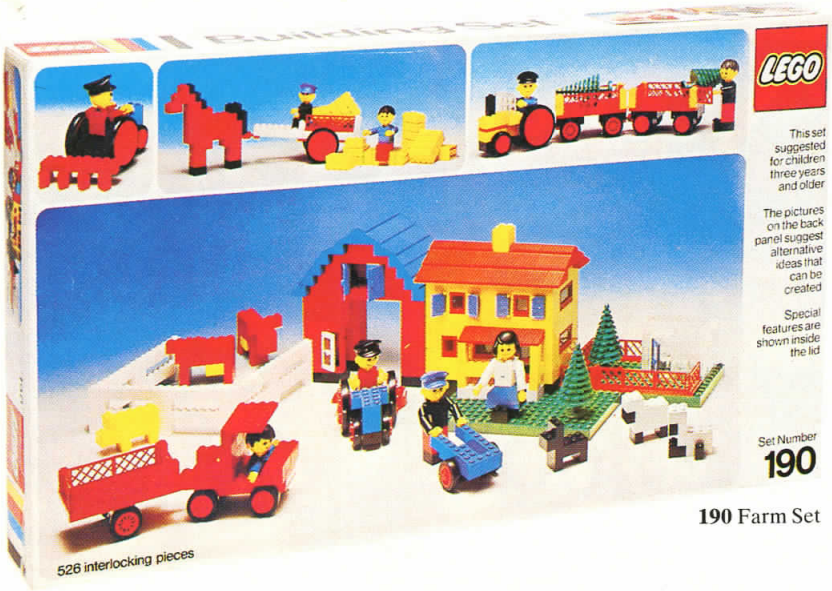
From 3 Years

LEGO Universal Building Sets

With these sets, a child can create anything he or she can imagine - there are literally millions of possibilities. The colorful package illustrations show a full range of creative ideas for building. Each set has wheels and tires, doors that open and close, windows with moveable shutters, baseplates and a wide variety of building bricks in different sizes, shapes and colors. The larger sets also contain many special pieces - people, roof bricks, clear bricks, trees and gates.

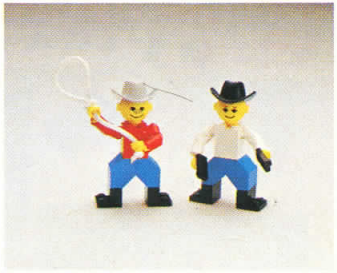
LEGO Models

From 3 Years



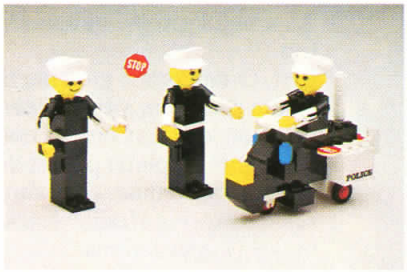
LEGO
This set suggested for children three years and older
The pictures on the back panel suggest alternative ideas that can be created
Special features are shown inside the lid
Set Number 190
526 interlocking pieces

190 Farm Set



198 Cowboys

199 Scooter



192 Policemen

194 Family

These sets concentrate upon specific situations and most include unique elements to make them more realistic. All of these sets have LEGO people with heads that turn, arms that move, hats and hairpieces - plus assorted bricks for making people tall, short or funny.

LEGO
404

LEGO Set 404 contains battery-powered motor. Makes cars go forward and backward. Cranes haul up and down. Propellers spin.

From 6 Years

LEGO Models

425 Fork Lift

435 Tipper Truck

492 Truck and Payloader

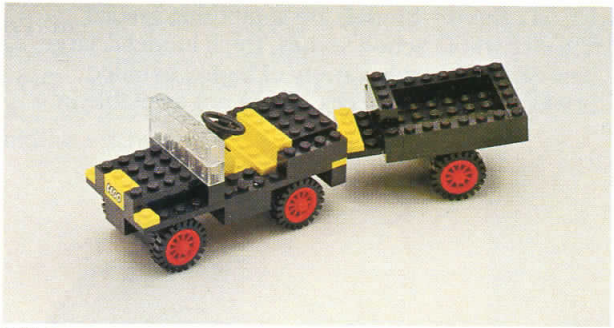
456 Spirit of St. Louis

445 Police Units

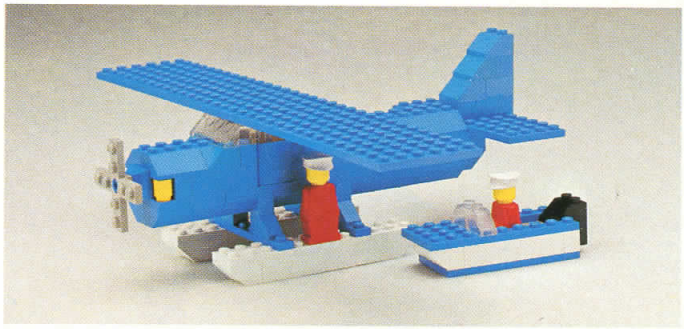
455 Learjet

485 Fire Truck

491 Formula 1 Racer

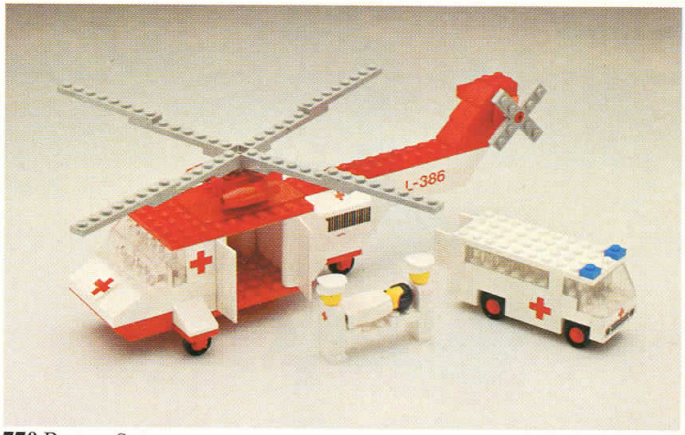


711 Jeep



712 Sea Plane

Each set contains special pieces for added realism. Many sets include true-to-scale Mini-Figures.



770 Rescue Set

780 Road Construction Set

From 6 Years

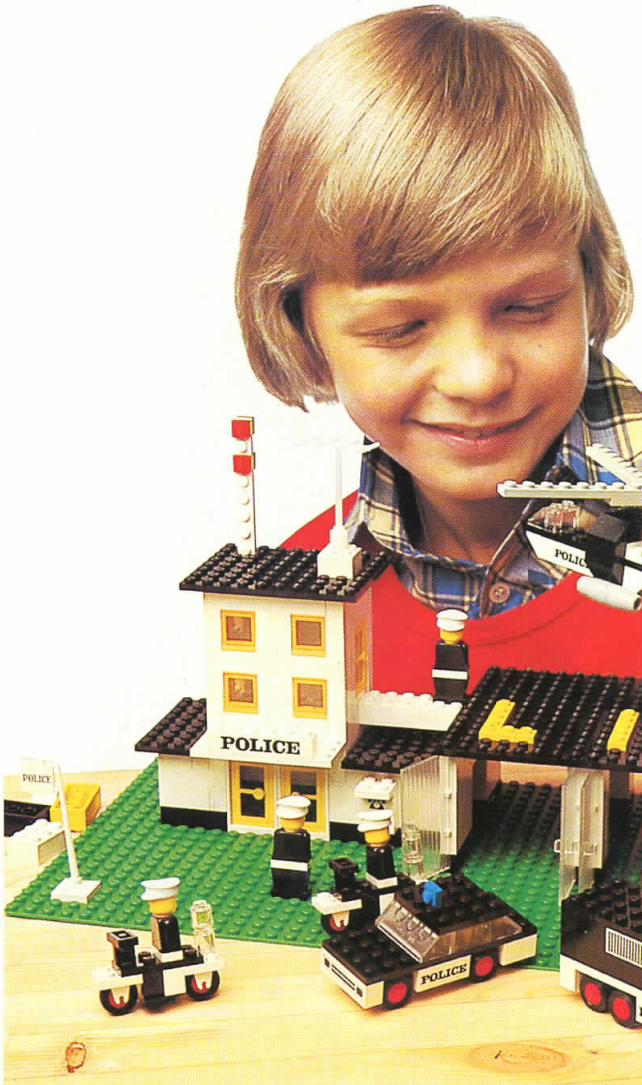
LEGO Enviro-Models™

LEGO Enviro-Models are something special. They're whole action scenes. Each model is large, consisting of a wide variety of highly detailed bricks and special pieces - some not available in

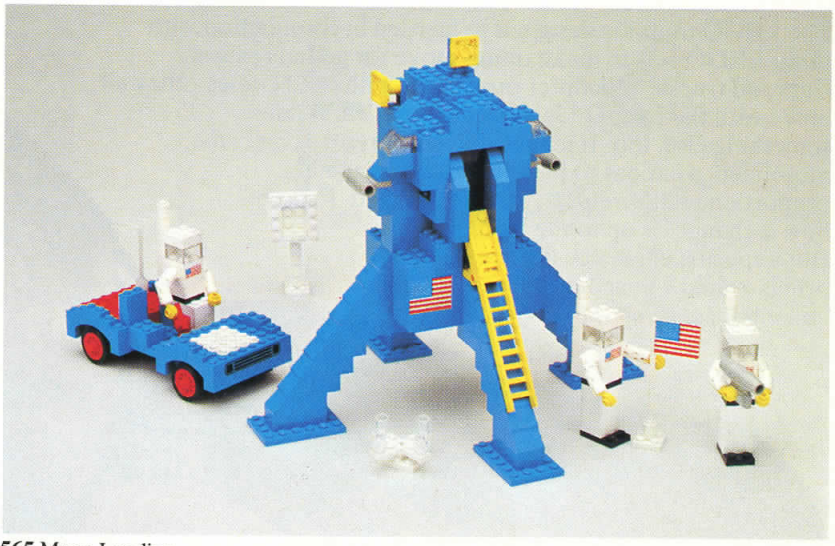
550 Windmill

555 Hospital

585 Police Headquarters



any other set. Yet each piece in the set goes with every piece in every other set. LEGO enviro-Models are challenging and fun. Each model comes with detailed building instructions.



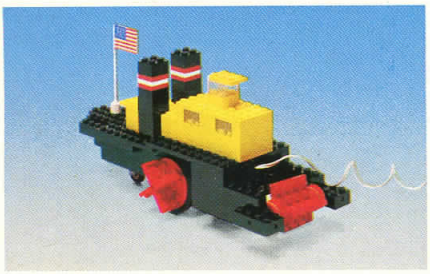
565 Moon Landing

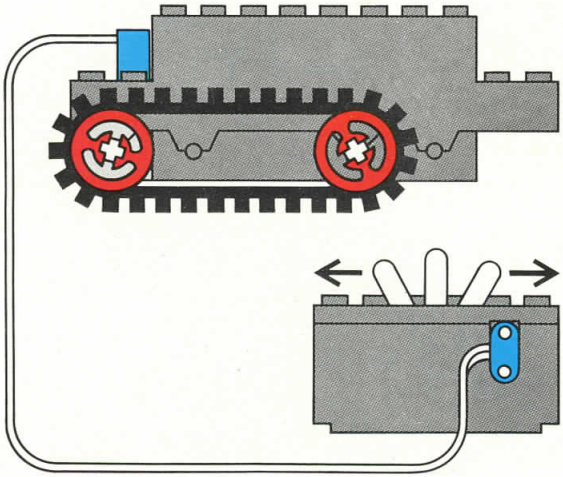
580 Brick Yard

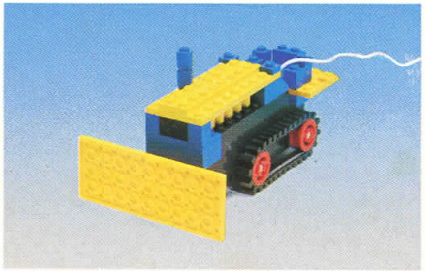
From 6 Years

LEGO Universal Motor

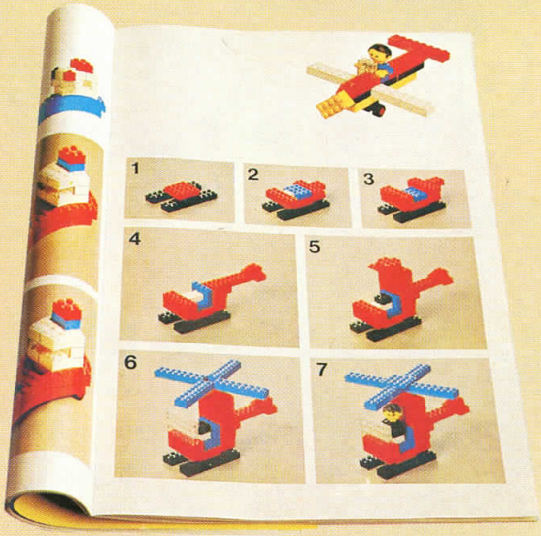
The LEGO motor is designed to be used in conjunction with other LEGO sets to make things move for added realism. Cars and trucks, helicopter props, windmills and cranes - they all move with the LEGO Universal Motor. But it does something else, too. It makes them different. To become motorized, a car has to be rebuilt, re-designed, proportioned differently, or even enlarged. Exactly how it changes is up to the builder.
But a specific challenge is presented that brings a child's imagination, perception and intelligence all into play.







LEGO® Idea Book



Building with LEGO bricks is fun. The more you have, the more you can do. For more ideas on what to make, send for your own LEGO Idea Book. It's full of ideas and things to build... from the simple to the more complex. Just send your name, address, and a check for $2.00 to:
